Your Business"

Data on buyers and imports
of BOPP films in Uzbekistan
for 2017 - 2019

Uzbek companies importing BOPP film into Uzbekistan:

1. LTD "XXX XXX" in full version

An enterprise specializing in the production of polypropylene woven bags. In addition, the company is one of the largest suppliers of packaging materials, in particular biaxially oriented polypropylene film (BOPP), and is also among the active Uzbek companies operating in the polymer market. The wide selection of films supplied by BOPP allows us to satisfy the most diverse needs of our partners. To date, the range of supplied products contains more than 20 types of films with a thickness of 15 to 40 microns, used for the production of flexible packaging, for the food and light industries.

157. (other 155 companies in full version)

The consulting company **DAKHANTA SERVIS** was established in 2007. The company specializes in financial consulting. We professionally develop marketing research, business plans, and investment projects according to the standards of international and local banks.

Today, the main Mission of our company is to "Provide Maximum Assistance to the Business Sector, in the field of opening and developing their own business."

The main services provided by our company:

- Marketing Reports on new clients – www.infoimex.com
- Marketing research of foreign markets – www.infoimex.com
- Services of business planning, feasibility study, marketing – www.bplan.uz
- Online polls - www.anketka.uz
- Internet commerce - www.bshop.uz
- Equipment supply - www.oborud.uz

The main competitive advantages of our company:

The quality of our business plans and feasibility studies are confirmed by the fact that our projects are successfully accepted in Uzbek and international banks.

Clients of our company have already become **more than 600 companies** in Uzbekistan and the near abroad.

What do you get when contacting our company?

- ✓ **Professional solutions** based on the experience of **more than 1030 completed projects**;
- ✓ **Ready-made techniques** in many sectors of the services and production sectors, where both small and medium-sized businesses and large businesses operate;
- ✓ **Main specialization** - Development of business plans and feasibility studies - of any complexity;
- ✓ Duration of project development - **from 3 working days**.
